

## How to Access Church Services on Roku TV

1. **Press the Home button on your Roku remote.** The button is represented by an image of a house. This will bring you to your Roku's homepage. If you own a Smart TV that comes with Roku built in, this button may look a little different on your TV remote. Consult the manufacturer's guide if you have any trouble finding it.

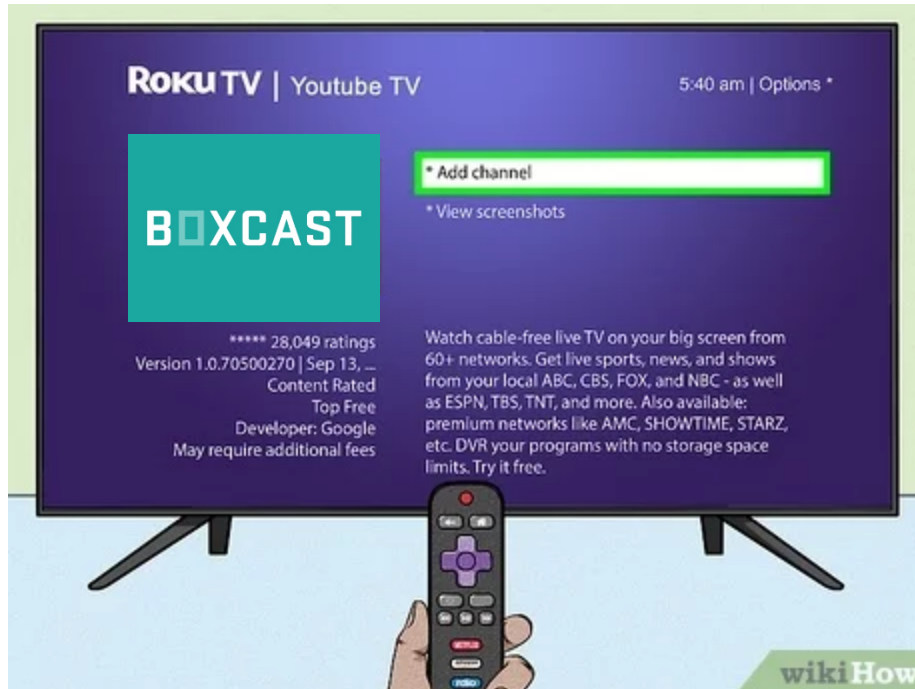

2. Select Streaming Channels to open the Channel Store. The Roku homepage will display various options. Scroll until you see Streaming Channels. Select it to visit the Channel Store.

### 3. Browse/Search for the “BoxCast” app.

Use the Rewind and Fast Forward buttons on your Roku remote to skip ahead or backwards one page at a time.

**4. Tap the + Add channel button.** Each app will have a large purple button beneath it that reads **+ Add channel**. Click it to add the channel to your account.

**5.** Once you have downloaded the BoxCast app, click on it from the Home Menu.

**6.** In the BoxCast app search: "Owensboro Gospel of the Kingdom Church." You will see the church's logo and channel appear. From here you can watch both live and archived services.
